We are not a bank. We are doing business as anyone's attorney, financial advisor, or accountant. (That's where you come in.) We are a niche online company that helps protect families who are borrowing, lending, or gifting money with relatives to purchase, refinance, or renovate a home. Our customers directly invest in and borrow from their own family, avoiding the high cost and red-tape of a broken mortgage system.

Since launching in late 2010, National Family Mortgage® products have helped thousands of families across the US lend over **\$1 Billion** in home loans between relatives, while keeping over **\$500 Million** of interest within families. We've been featured on the front page of USA Today, we've won some pretty big awards, and we've saved (and made) our customers a lot of money.

Real estate loans and financial gifts with relatives can be a win-win for both sides, but should be documented properly. A National Family Mortgage® helps minimize the legal, tax, and personal consequences that can occur when family real estate loans and financial gifts are documented improperly — or not documented at all.

Mortgage Loans That Fit Your Clients

Loans and mortgages between family members reflect an age-old impulse to lend a helping hand. Family loans are typically used for big life events: to buy a home, to start a business, or to finance an education. But, mixing money and relationships can be awkward, and sometimes, even cause tax problems. That's where we come in.

A National Family Mortgage® helps families setup their own mortgage with their own relatives. We help Lenders make loans they feel good about, that help prevent legal and tax problems, that protect relationships, and get repaid. We help Borrowers realize their home ownership dreams and stay on track with mortgage payments.

Lenders generate a solid investment return at stronger rates than they would earn in a bond, money market, or a savings account, knowing their money is secured by a registered mortgage lien. Borrowers get a lower interest rate and lower fees than they would with an institutional mortgage loan. We call it a Win-Win Mortgage®!

Some families use National Family Mortgage® to simply prevent IRS scrutiny of federal gift tax returns. Other families use National Family Mortgage® to protect family wealth in the event of a Borrower's death or divorce.

A National Family Mortgage® can provide the legal structure and tax benefits of a bank mortgage with an unmatched flexibility that fosters a true win-win transaction for the entire family.

Best of all, a National Family Mortgage® helps families build wealth and keep money where it belongs — with their own family.

Our goal is to make Family Mortgage lending and borrowing safe, easy, secure, and successful.

Hopefully, this guide will give you a clear understanding about what we do, how we do it, and how we might help your clients!

The Win-Win Mortgage® / The Gift Mortgage®

Setup Fee	\$2100	\$1725	\$1425	\$1075	\$875	\$725
Loan Size	\$1,000,000+	\$500K+ - \$1M	\$300K+ - \$500K	\$200K+ - \$300K	\$100K+ - \$200K	\$1 - \$100K

What Does This One-Time Setup Fee Include?

- Dedicated Family Mortgage Team Member.** Each family is assigned a dedicated Family Mortgage Team Member to guide them throughout the entire process. We help families take the simple, often overlooked steps that make sense when borrowing or lending money with a family member. Mortgage loans can be especially tricky. What's the secret to our success? Experienced, friendly, and reliable support from our team — every step of the way! We are also happy to connect with you, and your client's other professional advisors to ensure an easy and efficient Family Mortgage experience.
- Promissory Note.** The Promissory Note is the core document that establishes the legal debt between the Borrower and Lender, and defines how that debt is going to be repaid. This document also helps the Lender demonstrate to the IRS that the family exchange of money is a legitimate loan and not a potentially reportable gift. The Promissory Note also includes the Borrower's projected payment schedule.
- Mortgage / Deed of Trust / Security Deed.** This important additional document is the real estate lien security instrument through which the Borrower offers their property as collateral to the Lender in exchange for the loan. Generically, nearly all folks will refer to a real estate lien as a "Mortgage." However, while roughly 1/2 of the US uses a real estate lien document literally called the Mortgage, the other 1/2 of the US technically uses a real estate lien document called the Deed of Trust. Georgia, uses a real estate lien document called the Security Deed. The proper government registration of the real estate lien allows a Borrower to claim the popular IRS interest deduction on primary residence purchase money debt.
- Coordination with Borrower's Settlement Agent.** National Family Mortgage® will coordinate scheduling details and expectations with the Borrower's closing attorney, title company, or escrow company that will otherwise conduct the Borrower's real estate settlement. There is generally only one settlement agent, be it an attorney, title company, or an escrow company, as determined by state regulations and customs. Typically, the real estate agents involved in the transaction will help guide the selection of the settlement agent.* As with an institutional lender, the Borrower's settlement agent is responsible for ensuring the execution of the Loan Documents and for the recording of the real estate lien with the local government authority (Register of Deeds, County Clerk Recorder, Town Hall, etc.) Of course, the "Family Bank" deserves to be equally protected as a commercial lending institution!

* If the Borrower's property is in Texas, we require the Borrower's real estate closing must be conducted by either a Texas law firm or a Fee Attorney. A Fee Attorney refers to a lawyer who has entered into a contractual relationship with a title insurance company, or who serves as an agent of a title insurance company, to close real estate transactions on its behalf in exchange for a portion of the title insurance premium.

NFM offers a 90 day refund of your purchase, valid at any time prior to either the execution of or the government registration of the Mortgage Loan Documents. All refunds are subject to a \$75 processing fee. Therefore, the refund will equal the one-time setup fee paid, less the \$75 processing fee.

IRS Applicable Federal Rates

Please visit our website to review current IRS AFRs

Know The IRS Applicable Federal Rates

Each month, the IRS publishes an interest rate index called the Applicable Federal Rates (AFRs). These interest rates are determined by a variety of economic factors, including the prior thirty day average market yields of corresponding US treasury obligations, such as T-bills. The Applicable Federal Rates are used for various purposes under the Internal Revenue Code — including the calculation of imputed interest on below market loans between family members.

(We'll explain what "imputed interest on below market loans" means in a moment.)

When it comes to family loans — especially loans above \$10,000 — the IRS Applicable Federal Rates represent the absolute minimum market rate of interest a Lender should consider charging a Borrower in order to prevent unnecessary tax complications.

There are three AFR tiers based on the repayment term of a family loan:

- (1) Short-term rates, for loans with a repayment term up to three years.
- (2) Mid-term rates, for loans with a repayment term between three and nine years.
- (3) Long-term rates, for loans with a repayment term greater than nine years.

A Lender should assess two main factors when selecting the appropriate IRS Applicable Federal Rate for a family loan:

- (1) The length of the agreed upon repayment term of the loan.**
- (2) The IRS Applicable Federal Rate for that repayment term during the month in which the loan is made.**

The IRS Applicable Federal Rates change monthly. Typically, the IRS will announce the minimum required rates for transactions occurring in an upcoming month, around the twentieth day of the preceding month. When structuring a term loan, so long as the parties meet or exceed the appropriate AFR in effect at the time the loan is made, the rate is essentially "locked in" for the life of the loan. Generally speaking, these rates are significantly lower than market rates offered by a bank. [See IRC Sec. 1274\(d\)](#)

If a Lender chooses to simply not charge a family member a rate of interest at least equal to or above the appropriate Applicable Federal Rate in effect at the time a family loan is made, the IRS may impute the interest by taxing the Lender on the difference between the Applicable Federal Rate and the interest rate the Lender actually charged.

In other words, you lend a loved one over \$10,000, and never charge or collect a penny of interest income on the family loan, the IRS requires you to pay income taxes on the earned interest income the IRS believes you should have received, based on the AFR at the time the loan was made. [See IRC Sec. 7872\(a\) & 7872\(e\) & 7872\(f\)\(2\)](#)

In addition to holding the Lender responsible for the taxable imputed interest, the IRS also assumes that since the Borrower did not make the required interest payments, the Lender is considered to have gifted the Borrower the money to pay the interest that was due. [See IRC Sec. 7872\(f\)\(3\)](#)

The IRS doesn't want us making substantial, interest free loans to our family members. The IRS wants to tax us on required interest income on legitimate loans.

By engaging in a loan with a family member below the appropriate AFR, the Lender is effectively penalized twice — once through taxation of imputed interest, and again by applying the borrower's unpaid interest towards the lender's annual \$17,000 per person tax-free gift limit.

The IRS' annual gift exclusion permits a taxpayer to gift up to \$18,000 annually to each and every family member without penalty. Effectively, an individual could gift \$18,000 to everyone they know, but once any one gift recipient receives a penny more than \$18,000 from an individual donor in the calendar year, that donor must file a gift tax return. [See IRS Publication 559](#)

As always, we strongly encourage all families to discuss their individual financial strategies and potential estate planning and tax considerations with their trusted attorney, financial advisor, or tax advisor.
